Modulex - Pacific Exterior

Pacific Exterior was created for companies and other organisations looking for a modern and streamlined style.

The system is modular, so you can create and build a complete solution at your own pace. Pacific Exterior supplements Pacific Interior to create an aesthetically cohesive look both in- and outdoors.

Shapes

Choose from a wide assortment of lightly curved panels for wall- projected and free-standing signs. The modular system makes it easy to put together individual solutions and make changes.

Materials

Aluminum plate with welded bolts. Framework and other installation materials are made of extruded ABS plastic mouldings, extruded aluminum and galvanized steel. All together to face harsh weather and physical conditions.

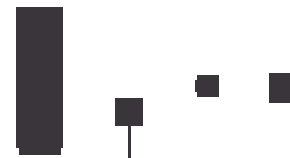

Colors

Panels are stove-enamelled to your colour specifications to create a superb lasting finish and are available in 128 different standard colours and more than 3,000 special colours.

Text and graphics

Pacific gives designers the freedom to create any style of sign they want, from bold and innovative to simple and elegant. The flexibility means that Pacific signs can be used in any environment, in parks and gardens or even alongside the most modern architecture. The solutions available includes vinyl, digital print and print on panel.

Questions?

For further information concerning technical data, sizes, custom or your own specified and configured signs, do not hesitate to get in touch with us. You will find our contact information at the bottom of this page and on: www.lexsign.se

Warranty

We provide a 2-year production warranty on all parts.

Environment

With a very few exceptions, all parts are made at our factory in Denmark and are therefore subject to some of the most stringent environmental requirements in the world. Moreover, in recent years we have received recognition and numerous awards for our ongoing work to minimise environmental impact and create a green, climate-friendly company.

Quality

Modulex has been awarded the ISO 9001 standard.
