

Modulex - Panorama

Panorama is a paperflex system that can be updated quickly and easily. The system allows frequent signage updates and is especially suitable for hotels, conference centres and hot desk areas.

With its gently curved fronts, Panorama combines nicely with other indoor signage systems from Modulex.

Shapes

There are three sizes of wall-mounted frames - A3, A4 and door sign format 110 mm x 140 mm

Materials

There is an optional software package called SignSoft which has been specially developed by Modulex. SignSoft helps you manage frequent organisational changes and create your own signs which can even incorporate symbols and corporate logos.

Colors

Panels are stove-enamelled to your colour specifications to create a superb lasting finish. There are 128 different standard colours and more than 3,000 special colours.

Text and graphics

Our convenient MS Word templates enable you to produce professional-looking graphics as you create and print signs that are tailored to your brand and meet your individual needs.

Questions?

For further information concerning technical data, sizes or custom signs. Do not hesitate to get in touch with us, you will find our contact information at the bottom of this page and on www.lexsign.se.

Warranty

We provide a 2-year production warranty on all parts. In addition, all product lines are covered by our 10-year supplementation guarantee.

Environment

With a very few exceptions, all parts are made at our factory in Denmark and are therefore subject to some of the most stringent environmental requirements in the world. Moreover, in recent years we have received recognition and numerous awards for our ongoing work to minimise environmental impact and create a green, climate-friendly company.

Quality

Modulex has been awarded the ISO 9001 standard.
