

Modulex - Basic Exterior

As the name indicates we have optimized to a basic construction obtaining the largest possible surface for text and graphics by using the smallest amount of material. This of course makes a monolith with a very competitive price.

Shapes

Basic Exterior is a monolith and comes in a range of three different sizes.

Materials

The essential material used for Basic Exterior monolith is two bended 2 mm aluminium plates to give the necessary strength. The fixing to the ground is made of galvanized steel.

Colors

Panels are stove-enamelled to your colour specifications to create a superb lasting finish and are available in 128 different standard colours and more than 3,000 special colours.

Text and graphics

Basic Exterior gives designers the freedom to create any style of sign they want, from bold and innovative to simple and elegant. The flexibility means that Basic Exterior signs can be used in any environment, in parks and gardens or even alongside the most modern architecture. The solutions available includes vinyl, digital print and print on panel.

Questions?

For further information concerning technical data, sizes, custom or your own specified and configured signs, do not hesitate to get in touch with us. You will find our contact information at the bottom of this page and on: www.lexsign.se

Warranty

We provide a 2-year production warranty on all parts.

Environment

With a very few exceptions, all parts are made at our factory in Denmark and are therefore subject to some of the most stringent environmental requirements in the world. Moreover, in recent years we have received recognition and numerous awards for our ongoing work to minimise environmental impact and create a green, climate-friendly company.

Quality

Modulex has been awarded the ISO 9001 standard.
